ACKNOWLEDGEMENT

The successful completion of our project work would be incomplete without the mention of the names of the people who made it possible.

We are thankful to **Dr. L Basavaraj, Principal, ATME College of Engineering, Mysuru** for having supported us in our academic endeavors by granting us permission and extended full use of the college facilities to carry out this project successfully.

We are extremely thankful to **Prof., Puttegowda D, HOD, Department of Computer Science and Engineering**, for his valuable support and his timely inquiries into the progress of the work.

We are greatly indebted to my project coordinator **Mrs. Sneha C R, Assistant Professor, Department of Computer Science and Engineering**, for her timely inquiries into the progress of the project work.

We express our earnest gratitude towards our guide **Mr. Anil Kumar B H, Assistant Professor, Department of Computer Science and Engineering**, for his consistent cooperation and support in getting things done.

We are obliged to all **teaching and non-teaching staff members of Department of Computer Science and Engineering** for the valuable information provided by them in their respective fields.

Lastly, we thank almighty, our parents and friends for their constant encouragement and courage, for helping us in completing the project report successfully.

TEJAS H R (4AD15CS084)

THANUSHREE M (4AD15CS085)

ABSTRACT

Question **P**aper **O**nline **D**elivery **S**ystem (**QPODS**) is used to safely deliver the question paper through online. QPODS aims to increase transparency and prevent question paper leakage by eliminating two steps which have been associated with malpractices — transport of the question papers and their storage in store rooms manned by officials. This system uses multiple layer of security to prevent leakage of question papers during their transportation from the press to the college.
